

## Digital Time Totaliser

**Model no:** TT-990 (96W x 96Hx 110D)mm  
TT- 490 (48W x 96Hx 100D )mm

**Display:** 0.5" Red 7 Seg. display.

**Range:** Diff. Time Range - Second/Minute/Hour range 0.01 to 1 Resolution programmable by user.

**Comm. With PC:** Isolated RS-485 serial port with MODBUS RTU protocol for PC interface.

**Features:** Latest microcontroller technology with watchdog feature for failsafe operation  
Delay OFF/Delay ON, Pulse output programmable with pulse duration.  
4 Digit cycle counter with indication of completed cycle number.  
Power on 3 condition 'Stop/Reset/Resume' programmable by user.  
Reset facility from front side as well as from rear terminal.  
HOLD/RESUME facility from front side.
